

WHEN BEING THE WORDMASTER @MACINTALKERS

YOUR ROLE AS WORMASTER

Your role is to choose the word of the day and to present it to your fellow members & guests. Here are some tips about the kind of word you should choose and how to introduce it.

CHOOSING THE WORD

- Choose a word that is related to the theme as much as possible
- Choose a word that is easy to use yet not often used. The goal is to use the word of the day. Ex of past words: betterment, sanguine, gullible, tempestuous, luddite...
- Adjectives and verbs are easier to use than nouns

DISPLAYING THE WORD

- Print the word and its definition on 3 pieces of paper to display from 3 different spots.
- Use a **LARGE** font (72 pt or more if possible), so it is readable from a distance.
- Include type of word (noun, adjective, verb...), definition, example.
- Keep the definition on paper short; again this is to make it readable. Ex:

BETTERMENT Noun Improvement, act of making better or the condition of being made better Ex: I join Macintalkers for the betterment of my communication skills

- Before the meeting starts, ask the SAA for some tape to fix the pieces of paper. Make it so the word doesn't show yet.

INTRODUCING THE WORD

- When presenting your role, come up and display the word, give its definition, type, and give a sentence as an example
- Tell that there will be a fine of 5c for any speaker (members only) who doesn't use the word of the day.
